

Police maintained criminal silence on the death of 11 years old Jamila Solangi of Johi, District Dadu

11 years old Jamila Solangi daughter of Dhani Bus Solangi died yesterday June 29, 2014, in civil hospital Dadu. 15 days ago, 11 years old girl Jamila Solangi was kidnapped by some persons of the solangi clan. Her father said that he went to police for registering FIR against the criminals who had kidnapped his daughter, but police did not listen, nor FIR was registered against them. Police was just beating about the bush, but not taking practical action against these criminals because they were influential persons and had given bribe to police of relevant police station. Then, we (father of victim girl) went to court for lodging FIR against the criminals. On our move to court, criminals throw our daughter in the street after having gang rapped. We took our daughter to hospital to provide her treatment, but she could not survive. Criminals and rapists are still free. Police do not act to bring these barbaric and inhuman persons into the court to give us justice.

Police are created to defend people, their property and implement the laws and the constitutional of the Pakistan made to secure fundamental rights of every citizen entitled them. If, The state departments and laws enforcement agencies become violators and abusers then who will protect the basic rights of people in this country. Then what is the fruit of making number of legislations, having international laws, conventions and agreements promising to secure fundament rights human beings.

If we want to see this society to be civilized, respecting human rights and promoting peace then we need to put our efforts together for rooting out such evils, promoting social justice in the society and to bring criminal and offenders into the court for justice to be provided to the victim. Otherwise, such evil will overwhelm and destroying our all cultural and societal values and norms. Let us put our voice together against such evils by either means we have available around us.
